Experience

FE Developer + UI/UX Designer

Boston Children's Hospital from January 2021 – July 2021 in Boston, MA + remote

- Led the creation of the front-end architecture + the redesign of the user interface of a React application.
- Improved and tested multiple SCSS structures and React components.
- Leveraged UX research and UI studies to increase accessibility and completion of the user tasks.
- Presented and received design + developer feedback from clients & team members daily in an Agile environment.
- Designed & prototyped web + mobile mockups in Figma + supported visual and UX development for 3 separate projects.

Web + Creative Intern

Imprivata from January 2020 – September 2020, Boston in MA + remote

- Completed Github pull requests ranging from front-end changes to fullstack feature requests and bugs.
- Formulated design solutions for multiple components and template pages. Implemented visually and functionally.
- Responsible for onboarding multiple members to the project as well as tackling difficult challenges as a team.

Marketing + Graphical Assistant

Khoury College of Computer Science from January 2019 – August 2019 in Boston, MA

- Created graphics for events + digital/print marketing materials using Adobe Illustrator, Photoshop, & InDesign.
- Managed high profile presentations to follow style guidelines for the Dean's office, including data visualizations

Freelance Web Developer + Designer

Felsenthal Health from August 2019 – Present in Memphis, TN

- Designed, created, and maintain a NextJS site for a small business insurance company in Memphis, Tennessee.
